

LED Dome Lights

Ultrabright, flange mount LED area lights designed for reliable use in heavy duty applications. Multiple-diode designs provide bright light output while conserving power. Diodes produce little heat and last up to 100,000 hours—no bulbs to replace. Corrosion proof, polycarbonate housing and lens—same material as bullet proof glass. Operating voltage 12-24VDC (low voltage cut-off 11.0VDC). Hard wired design includes 16-gauge lead and ground wires for mounting to all surfaces. Leads terminate in 180 male plugs for quick and easy connection to existing wire harnesses. Sealed housings and potted circuitry for waterproof performance.

Specifications

Model No.	Description	Diodes	Amp Draw		Pack	Qty.
			12VDC			
ILL-21CB	21-diode dome light	21	0.408A		Bulk	10
ILL-39CB	39-diode dome light	39	0.669A		Bulk	10

- LED's are Brighter than Conventional Lights
- No Bulbs to Replace—Ever!
- Use 90% Less Energy
- Safe, Dependable Service
- 100% Maintenance Free
